

Aryan Rajbhar

Software Engineer | Full-Stack Developer | Python Developer

📍 Varanasi, Uttar Pradesh, India | 📞 +91-7905962927

✉ rajbhararyan2003@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Entry-level Software Engineer with internship experience in **Full-Stack Development, Backend Development, and AI-powered applications**. Proficient in **Python, Flask, React.js, JavaScript, REST APIs, MySQL, Git, SQL, and API Integration** with hands-on experience designing, developing, testing, debugging, and deploying scalable web applications. Strong foundation in **Data Structures & Algorithms, Object-Oriented Programming, SDLC, Agile Methodologies, and Problem Solving**, with a passion for building efficient, secure, and user-centric software solutions.

Work Experience

Cognifyz Technologies | Full-Stack Web Developer Intern - Nagpur

Feb 2026 – Mar 2026

- Developed a full-stack web application using Python, Flask, React.js, and REST APIs, reducing development time by 20%.
- Integrated AI-powered features and REST APIs to improve real-time user interactions.
- Led a team of 8 members using Agile, Git, and GitHub for feature delivery.

ZIDIO Development | Web Developer Intern – Bangaluru

Mar 2025 – May 2025

- Developed responsive and cross-browser compatible web applications using **HTML5, CSS3, JavaScript, and React.js**.
- Integrated **REST APIs** and optimized frontend performance, responsiveness, and user experience.
- Collaborated in an **Agile development team** using **Git, GitHub, version control, debugging, and feature implementation**.

Projects

DARK AI | [Live Demo](#)

- Developed an **AI-powered desktop assistant** using **Python, Flask, Gemini API, and REST APIs**.
- Implemented **voice commands, PDF analysis, image recognition, and AI-powered chat** with LLM integration.
- Automated **20+ desktop tasks**, improving productivity through intelligent workflow automation..

HABIT TRACKER | [Live Demo](#)

- Built a responsive habit tracker using **HTML5, CSS3, JavaScript, and Local Storage**.
- Implemented **habit tracking, streak monitoring, task management, and progress analytics**.
- Designed a **mobile-friendly UI** with persistent client-side data storage and responsive layouts.

ZYPHER AI CHATBOT | [Live Demo](#)

- Built an **AI chatbot** using **Python, Flask, JavaScript, REST APIs, and LLM APIs**.
- Integrated **AI APIs** to deliver accurate real-time conversational responses.
- Developed a responsive chat interface with **API integration, error handling, and optimized user experience**.

Technical Skills

Languages: Python, Java, JavaScript, C, C++

Frontend: HTML5, CSS3, React.js, Responsive Web Design

Backend: Flask, REST APIs, API Integration

Database: MySQL, SQL

Developer Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook, Google Colab, Figma

Libraries: NumPy, Pandas, OpenCV, Requests

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Agile Methodology

Education

Bachelor of Technology (B.Tech) | Computer Science & Engineering

APJ Abdul Kalam Technical University, Lucknow | 2022 – 2026

Awards & Certificates

- **IBM - Full Stack Web Developer Certification (2026)**
- **IIT BHU - Python & Artificial Intelligence Workshop (2025)**
- **IIT BHU - Hackathon Winner, Artificial Intelligence with Python (2025)**
